.....

SOFCpower, a newly constituted company within the Eurocoating - Turbocoating Group, has purchased 100% of HTceramix' shares. The new structure, with SOFCpower as the parent company of HTceramix, will develop, manufacture and commercialize the HoTbox SOFC Generator of HTceramix.

HTceramix brings key SOFC technology to the partnership while SOFCpower offers 30 years of industrial & high volume manufacturing experience. SOFCpower hopes that the synergies between the two organizations will accelerate the market launch of the HoTbox.
